UMZIMVUBU LOCAL MUNICIPALITY COMMEMORATES WOMEN'S DAY IN KWABHACA

Ngu Bukho Ngcangula no Nolukholo Tshezi

Every year during the month of August, South Africa commemorates more than 20 000 women, who marched to the Union Buildings against the extension of pass laws on the 9th August 1956. A system meant to control women even further and reduce women to passive beings, at the mercy of men. On the 26th August 2021, Umzimvubu Local Municipality commemorated this year's Women's Month under

the theme: "Bouncing into spring as a woman of destiny". This is a global campaign and links women to global efforts to achieve gender equality by 2030. "This commemoration allows us to reflect on how far we have come as a society. The transformation of gender equality between men and women has significantly improved since 1956" said Cllr Garane. She further explained the purpose of the programme as an opportunity to get an

understanding of how women are feeling in their respective places of living. Mrs Kwatshwa, who was the keynote speaker for the day said, "Women ought to unite and stand together during this difficult period where we witness a sudden rise in GBV against women and children. As women, we cannot rest until we're recognized for our intellectual being and not for sexual pleasure. We also cannot rest until all perpetrators

of GBV are sentenced and removed from society." said Kwatsha. "We also need to understand that some of the women in our work places are victims of unmediated matters. This then leads to posttraumatic depression and non-performance at work. Women need to voice out their pain and heal inside before they can attempt to move on" concluded Kwatsha. Umzimvubu Speaker, Cllr Florida Ngonyolo commend-

ed the commemoration and said, "We have been empowered. This commemoration has restored the strength and resilience of us as women. The contribution of women to our society and the country at large must not be tainted as another useless activity" concluded Cllr Ngonyolo. The programme is commemorated annually to remind women that they too are part of this society.

“These RDP houses were built using high quality material that is highly suitable to restore the dignity of our people. The houses being handed over today form part of phase one (1) and it is expected that phase two (2) will commence as soon as the

new contractor has been appointed. Whilst more than 18 people have benefitted from the labour opportunities created by this project, we expect it to be complete by the end of March 2022” said Umzimvubu Mayor.

Nkosazana Dabula, 46, said, “I have been living inside an unreliable mud structure that brought me problems

every time it rained. I am staying with my family of 8 people and we had no privacy inside that room. Today I am humbled by the gesture displayed by the Municipality towards me and my family. I am deeply thankful for my new RDP house. This will change my life forever”, said a jubilant Dabula.

TSHISANE COMMUNITY WELCOMES THE CONSTRUCTION OF A NEW BRIDGE

BY Bukho Ngcangula & Nandipha Xangayi

More than 500 Community residents at Tshisane Village welcomed a newly built bridge in KwaBhaca. The multi-million bridge that was due to be completed in 8 months, was completed in 10 months due to unforeseen interruptions caused by the COVID-19 lockdown.

The infrastructure project created more than 150 job opportunities for local residents and includes a 2km access road.

The bridge includes three (3) span bridges which are each 6.6 meters long, a construction of 150 meters in height and a 6 meter wide concrete pavement with gabions.

“This project brings joy to the Municipality and has left us pleased with the continued support of the Project Steering Committee. It is also pleasing to note that one of the resident employees were fortunate enough to receive permanent employment from the contractor. This bridge did not only

bring about access to facilities of trade but it also contributed towards the economy of this Village” said Ward 24 Councillor, Ms Bulana.

Community resident, Victoria Bavuma, 38, said, “We are very happy to be welcoming such a bridge in our area. We had to walk across this river even if it left us vulnerable

during rainy days. It was a costly trip for motor vehicles because they had to travel via Mount Fletcher to reach certain areas in KwaBhaca. However, today we gather as happy residents and confident that this bridge will last us for a lifetime.

UMZIMVUBU MAYOR PLEASED WITH PUBLIC RESISTANCE AGAINST VIOLENCE AND LOOTING IN KWABHACA AND EMAXESIBENI.

By Khanya Kalashe

Umzimvubu Mayor, Cllr Sobane Mnukwa is pleased with the public resistance against violence and looting in KwaBhaca and EmaXesibeni. This follows unprecedented criminal activities and violence which become apparent in parts of Kwa-Zulu Natal, Mpumalanga and Gauteng. “The destruction of property and rampant looting of economic zones will have severe implications for our already ailing economy. This will further result in job losses and exacerbate hunger. I must however express my sincere gratitude towards the people of KwaBhaca and EmaXesibeni for their resilient stance in protecting their respective towns”

said Cllr Mnukwa. “As part of our ongoing engagement with key sectors of society, I will be meeting with leaders of various civil organisations and forums to discuss the current situation. These meetings will aide in restoring peace and harmony throughout Umzimvubu. This violence and destruction takes place in the midst of a devastating pandemic and as local government we can only do so much in trying to save lives. We plead with all residents to remain vigilant and work hand in hand with our law enforcement officers” concluded Umzimvubu Mayor.
