Acceptance

By signing this part of this Form of Offer and Acceptance, the Employer identified below accepts the tenderer's offer. In consideration thereof, the Employer shall pay the Contractor the amount due in accordance with the conditions of contract identified in the contract data. Acceptance of the tenderer's offer shall form an agreement between the Employer and the tenderer upon the terms and conditions contained in this agreement and in the contract that is the subject of this agreement.

The terms of the contract are contained in:

Agreements and contract data (which includes this agreement)
Pricing on a company letter head
Scope of work
Questionnaire

and drawings and documents or parts thereof, which may be incorporated by reference into Parts 1 to 4 above.

Deviations from and amendments to the documents listed in the tender data and any addenda thereto as listed in the tender schedules as well as any changes to the terms of the offer agreed by the tenderer and the employer during this process of offer and acceptance, are contained in the schedule of deviations attached to and forming part of this agreement. No amendments to or deviations from said documents are valid unless contained in this schedule.

The tenderer shall within two weeks after receiving a completed copy of this agreement, including the schedule of deviations (if any), contact the employer's agent (whose details are given in the contract data) to arrange the delivery of any bonds, guarantees, proof of insurance and any other documentation to be provided in terms of the conditions of contract identified in the contract data. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this agreement.

Notwithstanding anything contained herein, this Agreement comes into effect on the date when the tenderer receives one fully completed original copy of this document, including the schedule of deviations (if any). Unless the tenderer (now Contractor) within five working days of the date of such receipt notifies the Employer in writing of any reason why he cannot accept the contents of this agreement, this agreement shall constitute a binding contract between the parties.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, in submitting the accompanying bid:

(Bid Number and Description)

in response to the invitation for the bid made by:

(Name of Municipality / Municipal Entity)

do hereby make the following statements that I certify to be true and complete in every respect.

I certify, on behalf of _____ that:

(Name of Bidder)

1. I have read and I understand the contents of this Certificate;
2. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign, the bid, on behalf of the bidder;
5. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:
 - (a) has been requested to submit a bid in response to this bid invitation;
 - (b) could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
 - (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder

6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.
7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
- (a) p r i c e s ;
 - (b) geographical area where product or service will be rendered (market allocation)
 - (c) methods, factors or formulas used to calculate prices;
 - (d) the intention or decision to submit or not to submit, a bid;
 - (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
 - (f) bidding with the intention not to win the bid.
8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

VERY IMPORTANT NOTICE ON DISQUALIFICATIONS:

A bid not complying with the peremptory requirements stated hereunder will be regarded as not being an “Acceptable bid”, and as such will be rejected.

“Acceptable bid” means any bid which, in all respects, complies with the conditions of bid and specifications as set out in the bid documents, including conditions as specified in the Preferential Procurement Policy Framework Act (Act 5 of 2000) and related legislation as published in Government Gazette number 22549, dated 10 August 2001, in terms of which provision is made for this policy.

1. If any pages have been removed from the bid document, and have therefore not been submitted, or a copy of the original bid document has been submitted.
2. If the bid document is completed using a pencil. Only black ink must be used to complete the bid document.
3. The bidder attempts to influence, or has in fact influenced the evaluation and/or awarding of the contract.
4. The bid has been submitted after the relevant closing date and time.
5. If any bidder who during the last five years has failed to perform satisfactorily on a previous contract with the municipality, municipal entity or any other organ of state after written notice was given to that bidder that performance was unsatisfactory.
6. The accounting officer must ensure that irrespective of the procurement process followed, no award may be given to a person –
 - (a) who is in the service of the state, or;
 - (b) if that person is not a natural person, of which any director, manager, principal shareholder or stakeholder, is a person in the service of the state; or;
 - (c) Who is an advisor or consultant contracted with the municipality in respect of contract that would cause a conflict of Interest.
7. Bid offers will be rejected if the bidder or any of his directors is listed on the Register of Bid Defaulters in terms of the Prevention and Combating of Corrupt Activities Act of 2004 as a person prohibited from doing business with the public sector
8. Bid offers will be rejected if the bidder has abused the Umzimvubu Local Municipality Supply Chain Management System.
9. Failure to complete and sign the certificate of independent determination or disclosing of wrong information. Failure to submit the above will lead to immediate disqualification.

1. BACKGROUND

There are two municipal landfill sites in Umzimvubu Local Municipality, the Mount Ayliff and Mount Frere landfill sites. Both are licensed under General communal landfill site; water balance negative in terms of the National Environmental Management: Waste Act, 2008 (Act 59 of 2008), as amended, (NEMWA).

Mount Ayliff landfill site

The Mount Ayliff landfill is located east of Mount Ayliff, approximately two kilometres off the N2 at 30°48'13.62"S, 29°23'9.79"E.

The facility covers an area of approximately 2.5 hectares. The facility is licensed as a G:C:B- landfill and may accept general waste. It is estimated that approximately 35 tonnes per day of waste is disposed. This is above the 25 tonnes daily limit set as the Maximum Rate of Deposition (MRD) for

communal landfill sites in the Minimum Requirements for Waste Disposal by Landfill, 2nd Edition (Department of Water Affairs and Forestry, 1998).

The staff on site comprises the following:

- 1 x day-time security guard
- 2 x night-time security guards
- 1 x spotter
- 1 x weighbridge operator
- 1 x TLB operator
- 4 x waste pickers

Mount Frere landfill site

The Mount Frere landfill is located west of Mount Frere, approximately two and a half kilometres off the N2 at 30°53'20.93"S, 28°58'16.14"E.

The facility covers an area of approximately 8.5 hectares. The facility is licensed as a G:C:B- landfill and may accept general waste. It is estimated that approximately 40-45 tonnes per day of waste is disposed. This is above the 25 tonnes daily limit set as the Maximum Rate of Deposition (MRD) for communal landfill sites in the Minimum Requirements for Waste Disposal by Landfill, 2nd Edition (Department of Water Affairs and Forestry, 1998).

The staff on site comprises the following:

- 1 x day-time security guard
- 2 x night-time security guards
- 1 x spotter
- 1 x weighbridge operator
- 1 x TLB operator
- 4 x waste pickers

2. PROJECT DESCRIPTION

Monitoring and measurement plan includes well and constituent lists, and summarizes sampling, analytical, and quality control requirements. This plan will be carried out on surface water, groundwater, odour, particulates, radiation, leachate, landfill gas. The purpose of this is to assess the performance of key landfill site infrastructure and to allow the early identification of any risk or unexpected performance that may lead to noncompliance with permit conditions.

2. LEGAL FRAMEWORK

Chapter five of the National Environmental Management: Waste Act, 2008 (Act 59 of 2008) provides for licensing waste management activities. License conditions are monitored and enforced to ensure environmental protection.

Mount Ayliff Landfill site license no 12/9/11/L46/1 clause 2.3 which states that the license holder must maintain and implement an emergency preparedness plan and review it annually when conducting audit and after each emergency and/or incident. Clause 6.1 states that the license holder must put in place a monitoring and measurement plan.

And

Mount Frere Landfill site license no 15/2/1/2/8D/22 clause 2.3 which states that the license license holder must maintain and implement an emergency preparedness plan and review it annually when conducting audit and after each emergency and/or incident. Clause 6.1 states that the license holder must put in place a monitoring and measurement plan. Which amongst other things, include the following:

- Tonnage received, reclaimed and/or landfilled.
- Surface and ground water quality monitoring.
- Compaction ratio monitoring.
- Biogas monitoring.
- Air space monitoring.
- Landfill site stability.

Clause 3.4 of The National Waste Management Strategy (NWMS) (04 May 2012) states that the purpose of licensing is to ensure that specific conditions regulate identified waste management activities (as currently listed⁴⁷) that may have a detrimental effect on the environment.

Chapter three, regulation 8 (1) (c) of the National Environmental Management: Waste Act: Waste Classification & Management Regulations (R. 634 August 2013) states that the waste managers disposing of waste to landfill must only do so in accordance with the norms and standards for disposal of waste to landfill set in terms of section 7 (1) of the Act.

3. PROJECT OBJECTIVE

To develop landfill site monitoring and measurement plan in compliance with landfill permit requirements.

4. PROPOSED SCOPE OF WORKS

First and foremost the monitoring and measurement plan should demonstrate compliance with the compliance limits or requirements set in the permit. Furthermore, fulfil any additional monitoring and measurement requirements of the National Environmental Management: Waste Act, 2008 (Act 59 of 2008) and any other relevant legislation.

4.1. Landfill gas:

Monitoring of landfill gas is essential to ensure that the release of any landfill gas to the environment does not exceed the compliance limits as detailed in the Air Quality Management plan as adopted by the ULM Council. Proposed factors that should be taken into consideration when determining the site-specific landfill gas monitoring include:

- the age / status of the landfill
- the waste types landfilled
- the proximity of sensitive receptors
- the geological setting of the landfill
- the topography of the landfill
- the barriers and capping of the landfill

Monitoring frequency.

Monitoring constituents

Monitoring points

Tonnage received, reclaimed and/or landfilled.

Air space monitoring

Landfill site stability

4.2. Leachate and groundwater:

Monitoring of leachate and groundwater is essential to:

- confirm that the depth of leachate accumulated at the base of the landfill does not exceed the permitted compliance limit.
- monitor the generation and migration of leachate to groundwater to confirm groundwater or groundwater-dependent receptors are not impacted.
- monitor the composition of leachate to facilitate effective management of treatment and / or disposal.

Proposed factors that should be taken into consideration when determining the site-specific leachate and groundwater monitoring and measurement plan include:

- the waste types landfilled.

- the geological setting of the landfill.
- the hydrogeological setting of the landfill.
- the topography of the landfill.
- the liner and leachate collection system of the landfill.
- the proximity to surface water, groundwater and water-dependent receptors.

4.3 Surface water

To ensure that the facility will be protected from flooding, erosion by floodwaters and infiltration from perched water table.

- the correct functioning of the leachate collection and treatment system.
- that there are no 'breakouts' or 'run-off' from the landfill from unknown discharge points that are impacting surface water.
- migration via a groundwater pathway is not adversely impacting surface water.

4.5 Drainage and surrounding land uses

To ensure and evaluates if drains that direct stormwater away from the areas where waste is to be landfilled and in place and properly managed. Furthermore, to ensure and evaluate if appropriate buffer distance is maintained between the landfill and sensitive land uses (receptors) to protect those receptors from any impacts resulting from a failure of landfill design or management or abnormal weather conditions. These failures might constitute discharge from the site of potentially explosive landfill gas, offensive odours, noise, litter and dust.

4.6 Occupational Health and safety

Due to tenuous working conditions and working accidents in the past, sufficient safety measures for the personnel in certain solid waste management facilities are deemed a necessity. Besides the fact that such facilities are equipped with heavy machinery associated with safety risks, the working environment poses additional health risks to the personnel, due to their exposure to various waste-derived emissions. Therefore, it is required to establish and preserve the safety and hygienic conditions but also to equip and train their personnel during all waste treatment and management stages.

To ensure and evaluate the health and safety conditions in operating ULM Waste Management facilities.

4.7 Waste minimization

To ensure removal of recyclable materials from the waste stream.

5. DELIVERABLES AND TIMEFRAMES

5.1. Expected deliverables from the project:

- Inception Report, outlining amongst others a detailed approach, methodology and project implementation plan.

- Quality Management System/Plan for the facilitation, assessment, moderation and internal and external verification process.
- A project close-out report detailing amongst others the work against the approved project implementation plan, overall successes and failures, lessons learned, recommendations for future projects of this nature, etc.

5.2. Project timeframes:

- The indicative timeframe for the development on landfill site monitoring and measurement plan is two (2) months in total, including non-billable time.

6. SKILLS AND EXPERTISE REQUIRED

6.1. Key experts

Key experts are critical in successfully implementing an assignment of this nature given the diverse and complexity of the project.
