# **UMZIMVUBU LOCAL MUNICIPALITY**

## **GENERAL FILING SYSTEM**

### **TABLE OF CONTENTS**

- A. GENERAL INSTRUCTION
- **B. LIST OF MAIN SERIES**
- C. SUBJECT CLASSIFICATION
- D. LIST OF SERIES OF SEPARATE CASE FILES
- E. ANNEXURES
  - A. LIST OF PROVINCIAL DEPARTMENTS
  - B. LIST OF METROS AND DISTRICT MUNICIPALITIES
  - C. LOCAL MUNICIPALITIES
  - **D. PUBLIC ENTITIES**
  - E. CONTACT DETAILS ARCHIVES AND RECORDS SERVICES

#### A. GENERAL INSTRUCTIONS

#### 1. NAME OF OFFICE

This file plan is for the use of **Umzimvubu Local Municipality** and it may not be applied to any other office without the prior permission of the Eastern Cape Provincial Archivist.

#### 2. REPORTING

All amendments and additions (the omission of insertion of an underlining is an amendment as well) should be submitted regularly to the Eastern Cape Provincial Archivist for notification and formal approval. In case where the amendments/additions are circulated by means of circulars, it will be sufficient if a copy therefore is forwarded to the Provincial Archivist. For easy reference and effective control the notification should be numbered each year starting at number one, e.g. 1/2000..., 2/2001..., etc.

It is advisable that in cases where major amendments and/or additions are required, the prior approval for the amendment be obtained from the Eastern Cape Provincial Archivist before any new files are opened. (For unclassified correspondence see par. 16 of these instructions.)

#### 3. CONTROL OF THE FILE PLAN

Control of the file plan is assigned to the Records Manager of the Municipality. No amendments and/or additions to the file plan may be made without the approval of the Provincial Archivist. The duties of the Records Manager <u>interalia</u> the following:

- a) He/she must scrutinize the office daily file regularly to ensure that all correspondence is dealt with the correct files.
- b) He/she must ensure that paragraphs 4 and 4 of the instructions are strictly adhered to by scrutinizing the relevant files regularly to ensure that they are used correctly.
- c) He/she must keep the master copy up to date. (See also par 16.)
- d) The efficiency of the file plan should be examined regularly to ensure that the necessary amendments are provided. When new functions are acquired, new files should be created and where necessary, existing files should be

broken up or combined as the case may be. Parent files (i.e. headings which are subdivided but also used as files) should be examined regularly to prevent them from becoming general files and where necessary further sub-files should be created. NB – Such changes must be reported in terms of par.2 of these instructions.

- e) Particular attention should be paid to cases where correspondence is started on one file and where the emphasis then shift to another aspect in order to ensure that the matter is dealt with on the appropriate file.
- f) For duties i.e. the description on file covers and unclassified correspondence, see paragraphs 16 and 16 below.

(These duties should be included on the official's job description/performance agreement.)

#### 4. ACCURATE FILING OF CORRESPONDENCE

All officials' conducting correspondence should be supplied with a copy of the file plan. Officials must ensure that they are conversant with the series with which they work and should ensure that all correspondence is dealt with on the correct file. Incorrect filing should be rectified immediately to ensure that permanently valuable documents are not destroyed and to prevent the retention of ephemeral documents.

#### 5. POLICY FILES

**Provision** has been made for policy files. These files are identified by the symbol "**P**" as the last component of the reference number, e.g. 1/P, 1/1/P, etc. All matters concerning policy, rulings, instructions, procedures and directives, should be dealt with on these files to ensure easier reference. It must be noted that the term "instruction", as used above, indicates instructions regarding the work of a section and not instructions to officials. If a case arises before disposal authority has been issued on the file plan where a policy matter is decided on a subject file, the Records Manager should decide only, should be placed on the relevant policy file. Once disposal authority has been issued, a copy of a policy decision is taken on a **D** file; copies of all relevant documents should be placed on the relevant file. Where a bulky document, e.g. a report, contains a policy decision or ruling, only an extract of the relevant section of the report should be placed on the policy file.

Correspondence dealt with on policy files should be limited to that relating to the formulation and/ or revision of policy.

# THE FOLLOWING CORRESPONDENCE SHOULD NOT BE PLACED ON POLICY FILES -

- (i) Enquiries regarding policy that do not result in the formulation of new policy or new amended interpretation of existing policy.
- (ii) Dealing with individual cases which do not result in the formulation of new policy or amendment to existing policy.
- (iii) Cases concerning a main or sub-series as a whole, but which is not policy matters, as well as individual aspects of the particular subject for which no file exists. In such cases suitable files should be opened.

#### 6. ROUTINE ENQUIRIES

At appropriate places in the file plan files for routine enquiries have been provided. These files are identified by the symbol "R" as the last component of the reference number, e.g. 1/R, 1/1/R, etc. These files are for enquiries of a routine nature which require no further action subsequent to the reply. UNDER NO CIRCUMSTANCES MAY MATTERS OTHER THAN THE ROUTINE SUPPLY OF INFORMATION BE DEALT WITH ON THESE FILES.

#### 7. REPORTS AND RETURNS

In the main series for reports and returns provision has been made only for those reports and returns which cannot be dealt with under the other main series. Where files for reports and returns have been provided in the other main series they are to be used only where the relevant report or return cannot be placed on a subject file under that main series.

#### 8. ASPECTS OT SEPARATELY PROVIDED FOR

Sometimes it is necessary to provide files for subjects which in the beginning do not receive sufficient correspondence to warrant separate files being opened for each subject. These files may, however, not be used as "general" files. When the Records Manager notices that a specific subject generates sufficient

correspondence to justify creating a separate subject file, such a file must be provided for in the file plan.

#### 9. MASTER COPY

The master copy is that copy of the file plans which contains all approved subjects and which indicates how files are to be opened and stored. No file may be opened unless the file description has already been recorded in the master copy and the approval of the Record Manager has been obtained.

Individual case files which are opened according to notes in the file plan are not recorded in the master copy.

They should be recorded in a register of files opened (see par. 16). The Records Manager must ensure that all amendments and/or additions are recorded in the master copy immediately.

#### 10. REGISTER OF FILES OPENED

The purpose of this register is to keep a complete record of all files opened. A loose-leaf binder is recommended as it facilitates the insertion of extra pages which are usually required for case files which form part of the subject classification. The register is maintained in the same form as the file plan and files are entered in the same consecutive order. An extra column should be provided opposite the file descriptions in which to note the date of opening (date of first document) next to the file title. The first page of the register should indicate the name of the office to which the file plan is applicable as well as the date of implementation. (For secret files see par. 22)

#### 11. DESTRUCTION REGISTER

A register of closed **D** files should be drawn up as soon a disposal authority has been obtained. This register is divided into years, e.g. 2004, 2005, 2006, etc. When a file volume is closed, this reference number should be entered under the year in which it will be destroyed. A volume which is closed in 2002 and for which the disposal instruction is **D3**, therefore, will be entered under the year 2004. The register thus indicates which volumes are to be

destroyed in any particular year. The use of a loose-leaf binder is recommended as it is not possible to determine the number of pages needed per year beforehand. (For disposal see par. 18)

#### 12. IMPLEMENTATION

This file plan will be implemented on \_\_\_\_\_\_ and thereafter no correspondence may be dealt with on the files of the previous file plan. Permission can be obtained from the Provincial Archivist to incorporate case files from the previous file plan into the new file plan. All files from the previous file plan should be closed on the day prior to the date of implementation, and no original correspondence should be transferred from the old to the new file plan.

#### 13. OPENING OF FILES AND DESCRIPTION OF FILE COVERS

Files should be opened only when required. Care should be taken that the numbering and descriptions of the files, as indicated in the file plan, are strictly adhered to. In cases where file descriptions are too lengthy, certain components which do not form as essential part of the file description may be omitted.

Where, for instance, the complete file description reads as follows: Finance, Taxes, Land and Property Tax, Remission, the word Taxes may be omitted. Although certain components may be omitted, the title of the main series must always be given and the file description must be sufficiently comprehensive to describe the content of the file. In order to assist the registry staff, the Record Manager should indicate which components may be omitted in such cases. Titles should be printed in indelible ink. The dates of first and last correspondence as well as applicable disposal instructions when available should be indicated on the file cover. Worn covers should be replaced regularly.

#### 14. UNDERLINED DESCRIPTIONS

All underlined descriptions indicate subject headings only. Subdivisions must be made under these subject descriptions but NO FILE MAY BE OPENED FOR ANY UNDERLINED DESCRIPTION.

#### 15. EXPLANATIONS IN BRACKETS

The explanations in brackets under the subject headings of file descriptions are intended as a guide and should not be entered on file covers.

#### 16. UNCLASSIFIED CORRESPONDENCE: PROCEDURE

When correspondence is received for which no file is provided, such correspondence should be dealt with provisionally on file 2/9/2/2 and application should then be made to the records manager on file 2/9/2/2 for approval of the opening of a suitable file.

Full information in respect to the nature of the correspondence, as well as recommendations regarding the placing and description of the file required, should be submitted. The Records Manager will submit the application to the Provincial Archivist to approval and as soon as approval is obtained, will inform all heads of components including district offices, whose file plan should then be amended accordingly. The correspondence on file 2/9/2/2 should then be transferred to the new file.

#### 17. ANNEXURE FILE COVERS

An additional cover must be opened where necessary for storing bulky documentation which if filed would result in an inordinate increase in the volume of a file. No correspondence, may however be filed in such a cover.

The cover should be marked clearly with the correspondence file reference number and "Annexure File" written on the outside cover. Every document contained in the Annexure file should bear a cross-reference to the correspondence on which it was received.

#### 18. DISPOSAL OF FILES

Once disposal authority has been issued disposal instructions are recorded opposite each file in the disposal column provided in the file plan. The disposal symbols indicate the following-

- **A20**: Keep for transfer to the appropriate archives repository if a period of 20 years has elapsed since the end of the year in which the record came into existence.
- **D**: Destroy (after the lapse of number of years which is indicated by the number following the letter D) after closure of the records.

The destruction of files qualifying for destruction should be done regularly, but a least once a year. The prescribed destruction certificate should be submitted to the Provincial Archivist.

#### 19. THICKNESS OF FILES

Files should not exceed 3cm in thickness. On reaching this thickness a file must be closed and a new cover should be opened. The number of the new volume (e.g. vol. 2) must be indicated on the outside of the new cover. A sheet of paper which the wording "Closed, see volume ..." should be filed as the last item on the closed volume.

#### 20. CLOSURE OF A20 FILES

The following procedure should be followed when volumes of **A20** files are closed:

- (a) The correspondence should be examined in order to correct any misfiling. A sheet of paper containing the words "Closed, see volume ....." is then filed as the last item in the volume.
- (b) Worn file covers should be replaced.
- (c) The files are then stored in boxes especially used for this purpose.

#### 21. CASE FILES

Case files which form part of the subject classification are to be opened in accordance with the instructions appearing at the appropriate places in the system. For particulars concerning case files which do not form part of the subject

classification, see the list of series of separate case files at the end of the subject classification. (See also paragraph 16.)

#### 22. SECRET FILES

Concerning secret files the following procedure should be followed:

- a) Secret files may be opened under any main series, sub-series of file description appearing in the master copy of this system. These files are distinguished from the ordinary files by the addition of a capital letter **S** to the reference number.
- b) Should a secret file be needed for a subject for which a suitable main series, sub-series or file description does not exist, an appropriate provision should be made and reported in the usual way to the Provincial Archivist. It is not necessary, however, to indicate that it is intended for secret correspondence.
- c) Secret files are not indicated as such in the master copy and are also not recorded in the register of files opened for ordinary files. A separate register of secret files opened should be kept along the same lines as set out in paragraph 16 of these instructions.
- d) Separate arrangements for the safe-keeping of secret files must be made and should not be incorporated as a part of these instructions.
- e) The disposal instruction for all secret files is A20 and they should be dealt with accordingly.

#### B. LIST OF MAIN SERIES

- 1. LEGISLATION AND LEGAL SERVICES
- 2. ORGANISATION AND MANAGEMENT
- 3. COUNCIL AND WARD MANAGEMENT
- 4. HUMAN RESOURCES MANAGEMENT
- 5. FINANCE
- 6. SUPPLY CHAIN AND TRANSPORT MANAGEMENT
- 7. REPORTS, STATISTICS AND SPEECHES
